

Hydrogen + Fuel Cells ASIA 2019 Conference

(status: August 15, 2019)

Day 1. October 23

Location: [Jumeirah Himalayas Hotel](#)

Program:

13:00 – 13:10	Opening speech	Mr. Xiong Meng, Secretary of the Party Committee and Secretary General of China Federation of Industrial Economics
13:10 – 13:30	Keynote speech	Mr. Li Yizhong former Ministry of Industry and Information Technology, Member of the Standing Committee of the CPPCC, Deputy Director of Economic Committee of the CPPCC and President of China Federation of Industrial Economics
13:30 – 13:50	tbc.	China Federation of Industrial Economics
13:50 – 14:10	Keynote speech How to speed up the development and utilization of hydrogen in China's energy system	Mr. Wang Xiangxi, Chairman and Secretary of Party Leadership Group of China Energy Investment Corporation Ltd.
14:10 – 14:30	Keynote speech	Mr. Lu Yaohua, former General Manager of China National Coal Development Co., Ltd., former Special Inspector of the State Council, former Chairman of the Supervisory Board for the Key State-owned Enterprises of the State Council and Member of the Eleventh National Committee of CPPCC
14:30 – 14:45	Hydrogen and fuel cells for material handling applications	tbc.
14:45 – 15:00	Fuel Cells for material handling and other mobile applications	Dr. Mohsine Zahid Global Business Development Manager Fuel Cells ElringKlinger AG
15:00 – 15:15	Coffee break	
15:15 – 15:30	Keynote speech	Mr. Yu Peigen, Director, General Manager and Deputy Secretary of the Leading Party Members' Group of Dongfang Electric Corporation
15:30 – 16:30	Discussion and Q&A "Advantages of hydrogen and fuel cell technologies in material handling"	Alfred Wong, Managing Director of Asia Pacific, Ballard Power Systems Inc. Bruno Forget Hydrogen Company Director Asia, Air Liquide

16:30 – 17:00	Release of "Advanced and applicable hydrogen utilization and fuel cell technologies and products"	tbc.
19:00	Reception at Paulaner Hall (hall N2, trade fair ground)	
Day2. October 24		
Location: Shanghai NEW Int'l Expo Centre , Hall N2, M41		
Program:		
10:00 – 10:20	Introduction: Advantages of hydrogen and fuel cell technologies in material handling	tbc.
10:20 – 10:40	Company interview	tbc.
10:40 – 11:00	The German Energy Transition – Opportunities for Hydrogen Technologies	Robert Herzner, China Director, Germany Trade & Invest (GTAI) Shanghai
11:00 – 12:00	Discussion + Q&A with speakers of the industry: Advantages of hydrogen and fuel cell technologies in material handling	tbc.
12:00 – 12:20	Company presentation	tbc.
12:20 – 12:40	Company interview	tbc.
12:40 – 13:00	Company presentation	tbc.
13:00 – 13:20	General introduction: What is a fuel cell, how to produce hydrogen?	tbc.
13:20 – 13:40	Company interview	tbc.
13:40 – 14:00	Company presentation	tbc.
14:00 – 15:00	Discussion + Q&A with speakers of the industry: "Commercial use of fuel cell delivery trucks in China"	tbc.
15:00 – 15:20	Company presentation	tbc.
15:20 – 15:40	Company presentation	tbc.
15:40 – 16:00	General introduction: What is a fuel cell, how to produce hydrogen?	tbc.
