

# CeMAT ASIA 2020 - Online Guided Tours

## Tour 1 - AGV & Logistics Robots

No.	Exhibitor	Hall/Booth	Description
1	HAI ROBOTICS	N1/B2	<p>HAI ROBOTICS provides efficient, intelligent, flexible, and customizable automation solutions to optimize warehousing operations. As a pioneer in autonomous case-handling robotic (ACR) system, HAI ROBOTICS successfully launched the first ACR system HAI PICK in 2015. The company has been perfecting its products continuously with its expanding customer portfolio ever since. With HAI PICK, warehouse automation can be deployed within one week. HAI PICK has increased warehouse operation efficiency by 3-4 times, and storage density by 80%-130% for clients including DHL Supply Chain, BEST Supply Chain, and Phillips, etc.</p>
2	Geek'plus	N1/A3-2	<p>Geek+ is a global technology company specialized in smart logistics. We apply advanced robotics and artificial intelligence technologies to create solutions for warehouse and factory operations. With the rise of e-commerce and the demand for a faster and more flexible movement of goods, warehouse and manufacturing operators are facing increasingly complex production and logistic challenges today. Speed, product diversification, same-day delivery, volume, safety... these concerns are impacting a wide range of industries, from apparel, retail, automotive, to even electronics, energy and pharmaceutical industries. Geek+ was founded to be the solution to these problems. We make logistics affordable, efficient, flexible, safe and agile. Our vision is to establish a fully automated and intelligent supply chain globally.</p>
