

CeMAT ASIA 2020 - Online Guided Tours

Tour 3 - Domestic Warehousing System Integrator

No.	Exhibitor	Hall/Booth	Description
1	JD Logistics	W2/A4	<p>JD began building its nationwide logistics network in 2007. In 2017, the company officially established the JD Logistics business group, with a mission of “powered by technology for global efficient circulation and sustainable development”. Now, JD Logistics is opening up its more than 10 years of experience in logistics infrastructure, management and technological capabilities, to benefit society as the trusted industry partner for global smart supply chain infrastructure and services. JD Logistics is the only logistics company in the world to provide small-to-medium sized warehousing, oversized warehousing, cross border, cold chain delivery, frozen and chilled warehousing facilities, B2B and crowdsourcing logistics. Taking advantage of this network and with the application of big data, cloud computing and smart devices, JD Logistics has built the most efficient, algorithm-based smart supply chain service system, covering all processes including inbound and outbound warehouse flow, transportation and delivery, and more. The core strategy of our global smart supply chain network is “experience based, efficiency and technology driven”.</p>
2	HUAZH Intralogs Technology Co, Ltd	W1/G3	<p>In 2000, the concept of mini-load shuttle AS/RS was raised due to the ever-growing needs of throughput in high-bay warehouses. In 2002, the predecessor of HUAZH (the logistics research institution of Nanjing University of Science and Technology) has thrown themselves into the research and development of shuttle “goods-to-person system”. In 2007, HUAZH obtained the complete system patent of mini-load shuttle AS/RS granting by State Intellectual Property Office. At the same time, HUAZH got the first mini-load shuttle AS/RS project (using 110 shuttle vehicles). Since the first shuttle vehicle was developed in 2003, HUAZH has successfully introduced four generations multi-functional shuttle system. After more than ten years of development, HUAZH has been transformed from a supplier of goods to people equipment and software into a supplier of internal logistics core products and overall solutions.</p>
3	Beijing Vstrong Intelligent Technology Co., Ltd.	W1/C2	<p>Vstrong Intelligent is an outstanding intelligent logistic system integrator in China. All along, we focus on providing professional logistic system solution for customers.</p>

No.	Exhibitor	Hall/Booth	Description
4	KSEC Intelligent Technology Co., Ltd	W2/C2	<p>KSEC Intelligent Technology Co., Ltd. (KSEC Intelligent) is affiliated to Kunming Shipbuilding Equipment Co., Ltd. (KSEC), a subsidiary of China State Shipbuilding Corporation Limited (CSSC).</p> <p>A new enterprise featuring deep integration of advanced manufacturing and modern services, KSEC Intelligent has leading position in domestic automatic logistics system. It is one of the first 23 intelligent manufacturing system solution providers, as well as one of the 2020 optimal collaborative manufacturing and integrated (process-oriented manufacturing) enterprises recommended by the Ministry of Industry and Information Technology. We serve thousands of customers and many sectors such as military affairs and defense, tobacco, liquor, medicine, express delivery, e-commerce, finance, energy and petrochemicals. Strong capabilities of equipment research and development, manufacturing, project integration and implementation, operation and maintenance have helped conduct large and medium-sized projects including over 2,000 smart production lines, smart factories, smart distribution centers and parks. We are present in European and American countries and partner countries of the Belt and Road Initiative, gaining popularity and praises among users.</p>

We thank our partners for their support:
